
Supported decision-making and person-directed use of technology

Aging and Adult Care of Central Washington

May 2017

Presented by Susan Wehry MD

Thanks for being here

Goal:

Whet your appetite | Provide food for thought

Objectives

- Discuss opportunities for more person-directed care
- Locate SDM resources
- Describe mobile apps for persons needing decision-making support

Current landscape

Expansion of home and community based services

Expansion of regulations requiring person-centered care

Technology explosion

Policy wonks

Streamlining Medicaid

Financial eligibility

Program enrollment

Functional status

Incentives

[Kaiser Family Foundation Issue Brief](#)

Ensuring Resident Choice in Care Planning

Doin' the right thing

Meeting the Regs

Rothschild Person Centered Care Planning Task Force

Telehealth

Monitoring
Interventions

Assistive technologies

Medication monitoring

Fall detection

Technology Offerings

Not Endorsements

iKeyp

Clarity Life

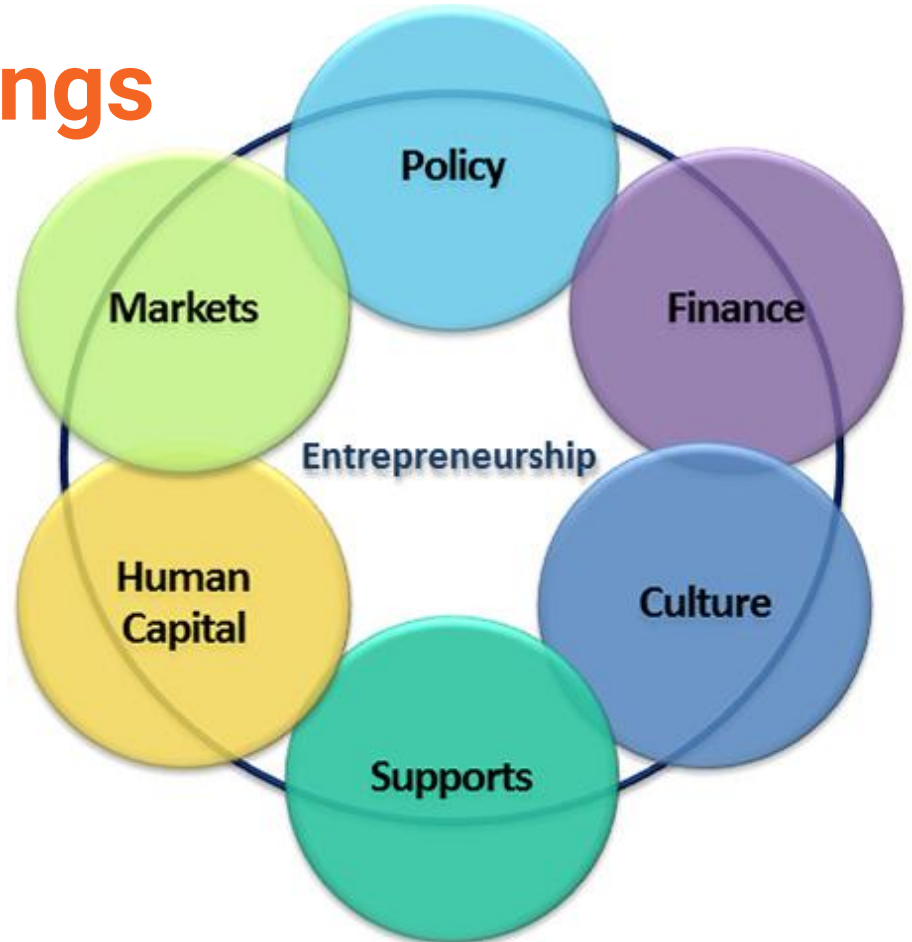

August Home

Hasbro

CareJOY

ViewClix

Laurie Orlov, former LTCO

Technology Offerings

Not Endorsements

SPLT

A transportation platform changing the way people commute worldwide through enterprise carpooling in a closed network and in partnership with Lyft, providing non-emergency medical transportation.

Laugh.ly

Laugh.ly is the first and only streaming app dedicated to stand-up comedy.

Supported Decision-Making

SDM App Demo

Thanks again
